   RE: 2020-2021 Audit Report

6.0 Reports
6.1 Building Projects – Kathleen Graham reported:
Well/water system- Julie and Kathleen met with Bill Anderson to clarify how the well-to-tank-to-school system is set up, including the chlorination process. After consulting with the Water and Engineer experts we are recommending the purchase of a 5,000-gallon shop-built galvanized metal epoxy lined tank. It will be equipped with anchor bolts based on our seismic requirements. The biggest problem we are having is trying to get the two tank companies we have found, and talked with many times, to
actual send the quote and information. We have received quotes are now waiting on the engineer to look at them.
Shade structure- Plans are done and now we are waiting on the Architect to send us the agreement so he can get them approved. If the Architect doesn’t approve the plans soon we may have to explore other options.
Generator - it’s at the school and should be operational by the end of the month. They are waiting on a connection part for the propane.
Solar- Jeff and Kathleen met with a representative from Redwood Coast Energy Authority and he is very eager to help. I will share those ideas and updates at the meeting, along with our status with McKeever.
Building Project audit- The soft audit is still underway at OPSC. Kathleen asked the board for permission to move forward with exploring solar, and everyone was in agreement.

6.2 Superintendent –
- The LCAP Mid-Year Report and the Supplement to the Annual Update for 2021-22 LCAP were a new experience for both Robin and Kathleen. Time consuming, but now done. They were also a good warm-up to the rest of the year budget and LCAP requirements.
- Two new programs are also being started up this year: Universal Pre-Kindergarten (UPK), which means Transitional Kindergarten for all 4 years olds by 2025 but phased in over the next 3-4 years, and the Expanded Learning Opportunities Program (ELOP), which has a summer component and about which there are many questions that still need to be answered. Kathleen will bring information about both to the meeting.
- The Federal Indian Education Grant spring reporting requirements are coming up in March and April. The program works in conjunction with our State Indian Education Grant to provide services and opportunities to our native youth and to help bring more native culture awareness to all of our students.
- There will be a Parent Advisory Committee meeting on Tuesday, February 15 at 3:30pm to discuss all of the above, plus other school programs, activities, and plans.
- This month's Zoom board training offered by TCOE is Tuesday, Feb. 8, 5:30-7:30pm
